Thank you for the donation to Springboard of £200

Dear members of WHRADA

Thank you for the donation to Springboard of £200. We are honoured to be one of the four chosen charities you support.

Your support and generosity is greatly appreciated as we continue to provide our vital service to so many families of children with disabilities across North Somerset.

The past year has seen a dramatic increase, across all of our centres, in the number of families requiring Springboard help. Playroom sessions for children have been full and we have worked with over 50 non-session community families giving access to our Stay & Play mornings together with advice and support from our Family Practitioners (SEND). To achieve this, we have now opened an additional set of sessions at our Mead Vale base, doubling the number of children we can support from this setting. This is in addition to our bases in Clevedon, Ashcombe and South Weston.

The gap between the funding Springboard receives from statutory bodies and the amount needed to provide very young disabled children in North Somerset the best possible start in life continues to grow. We rely heavily on fundraising, donations from individuals and grants from charitable trusts.

The amount we need to raise for the 2023-24 academic year is £290,000. Support from our community has never been more important and we are so grateful that individuals and organisations continue to choose us when fundraising.

We are so proud that Springboard continues to be a safe and secure place where children with disabilities are able to learn and flourish. Where different isn't different and additional needs are not an additional burden, supporting families in challenging times.

Do keep an eye on our website and social media for information about our activities and latest fundraising news.

Kindest regards

Nikki Tams
